WASHINGTON, D. C. 20418

November 29, 1977

Dr. Joshua Lederberg
1431 Pitman Avenue
Palo Alto, California 94301

Dear Josh:

I have your note of 17 November. As I indicated on the telephone, we would be delighted to develop a program whereby junior faculty members might spend some time here at the NAS-NRC. Our previous attempt was only partially successful, for reasons that I indicated. I would appreciate your sounding out young people at Stanford simply as a trial balloon to discover whether, were such a program in existence, there might be any takers.

With all good wishes.

Sincerely yours,

Philip Handler
President
